SHORT PROFILE

Computer Science graduate from Bina Nusantara University specializing in Mobile Applications and Technology, with a strong background in Mobile and Backend development. Experienced in Flutter, Node.js, Kotlin, Java, and JavaScript through a one-year software engineering internship. A highly analytical professional skilled in optimizing system performance, API efficiency, and large-scale data reconciliation to deliver scalable innovations.

EDUCATION

King AbdulAziz University

2025 - 2026

Diploma of Arabic And Culture Program (GPA - 3.87/5.00)

- Saudi Government Scholarship Recipients through the Arabic Language Learning Program for Foreign Students
- Course Works: Grammar, Reading, Arab Culture.

Bina Nusantara University

2021 - 2025

Bachelor of Computer Science (GPA - 3.67/4.00)

- Thesis Title: IMPLEMENTATION OF AN RECRUITMENT SYSTEM BASED ON WEB FOR HR PROCESS EFFICIENCY.
- Course Works: Algorithm and Programming, Data Structures, Object Oriented Programming, Artificial Intelligence, Mobile Programming, Web Programming.

WORK EXPERIENCE

Seasonal Work - Petugas Haji at Kementerian Haji & Umrah Indonesia

May - June 2026

- Reconciled Indonesian flight manifests and inputted 200,000+ pilgrim records into Saudi's Masar Nusuk system, managing complex groupings and validating contracts to ensure 95% operational readiness.
- Conducted on-site supervisory audits of Special Hajj Travel Agencies (PIHK) via a three-way data reconciliation of manifests, agency lists, and visa data for real-time deployment verification.

Self-employed - Backend Developer at Katsikat Shoes Treatment

Feb 2025 - Aug 2025

- Managed the full-cycle cloud deployment of KatsikatRekrutmentApp, including VPS server setup, configuration, and public release, ensuring high system availability and security for the web application.
- Architected and developed robust Backend APIs for KatsikatRekrutmentApp using Node.js to power the e-learning and testing modules, which successfully reduced overall recruitment processing time by 80%.

Intern - Application Developer at Polytron Indonesia

Feb 2024 - Feb 2025

- Enhanced user engagement for MyPolytron (Flutter) by developing and optimizing key features for the mobile app (available on Play Store & App Store), resulting in a 55% improvement in app stability and resolving 10+ critical bugs to ensure a seamless user experience.
- Optimized Node.js (Express.js) API performance by 87.5% for the MyPolytron app, refactoring core endpoints to reduce response latency from 12 seconds to 1.5 seconds, which significantly enhanced mobile app responsiveness.
- Engineered a standalone barcode and QR code scanning module for the Sales App using Kotlin, accelerating the internal inventory tracking process by 40% through high-accuracy scanning algorithms.
- Maintained and enhanced internal web platforms using JavaScript (EJS), CodeIgniter, and Bootstrap, thereby modernizing internal legacy systems and improving workflow speeds by 60% for over 90+ active internal users.

- Collaborated in a fast-paced environment to deliver features and fixes, streamlining the development lifecycle via Agile (Kanban) to ensure consistent project delivery and effective task management.

ORGANIZATIONAL EXPERIENCE

Assistant Manager Mobile & Web Div at Radio PPI Dunia

April 2025 – Juli 2026

- Optimized digital platform reliability: Maintaining and developing critical web infrastructure for Radio PPI Dunia, ensuring 99.9% uptime and implementing new features to support global broadcasting.
- lead the development of new Radio PPI Dunia PWA: Acting as the Project Lead for the new Progressive Web App, overseeing the end-to-end development lifecycle to enhance platform accessibility and user retention.
- Team Coordination & Management: Co-leading a cross-functional squad of 3 Developers and 2 UI/UX Designers by implementing structured Agile workflows and sprint cycles to ensure synchronized progress and consistent feature delivery.

Learning & Teaching Staff at Bina Nusantara Computer Club

July 2022 - July 2024

- Mentored students in Mobile Development LnT Class: Facilitated weekly technical workshops for 30+ students, delivering a comprehensive Mobile Development curriculum and ensuring mastery of cross-platform frameworks and UI/UX implementation through hands-on guidance.
- Educated aspiring developers on Open Source: Delivered a keynote talk at BNCC Hacktoberfest 2022, guiding 40+ attendees on Git, GitHub, and open-source contributions to foster community collaboration

SKILL

- **Languages:** Indonesian (Fluent), English (Intermediate), Arabic (Basic)
- **Mobile Frameworks:** Flutter, Native Android (Android & IOS).
- **Backend Frameworks:** Node.js, NestJS, Express.js, Firebase.
- **Frontend Frameworks & Web:** Bootstrap, EJS (Embedded JavaScript), HTML5, CSS3.
- **Databases:** Room Database, SQLite, MySQL.
- **Design Patterns & Architecture:** MVP (Model-View-Presenter), Mobile Architecture, Object-Oriented Programming (OOP).
- **Tools & Platforms:** Git, GitHub, Postman, Unity.
- **Technical Practices:** RESTful API Design, Agile (Kanban), Mobile App Testing & Debugging.
- **Office Applications:** Microsoft Word, Microsoft Excel, Microsoft PowerPoint

CERTIFICATION

Business Analysis & Process Management — Coursera Project Network

Demonstrated proficiency in mapping operational workflows, identifying process bottlenecks, and applying strategic improvements to enhance business efficiency.

AI Praktis untuk Produktivitas — Dicoding with AI Opportunity Fund (Google.org, AVPN, ADB)

Demonstrated proficiency in leveraging AI tools and strategic prompt engineering to maximize professional efficiency. Skilled in applying responsible and ethical AI practices, mitigating system limitations, and developing continuous learning strategies to adapt to evolving technological trends.

ACHIEVEMENT

- 2nd Place in the Tourism Track at KAU Innovatech Hackathon (2025): Developed "Ruh Arabia," an interactive mobile application designed to promote sustainable ecotourism, local nature exploration, and conservation efforts in Saudi Arabia.
- Saudi Arabia Government Scholarship Awardee (2025): Saudi Government Scholarship Recipients through the Arabic Language Learning Program for Foreign Students.
